About Me

I am a recent graduate of Ibn Khaldun University in Bogor. With a deep interest in software development, I have an understanding of programming languages such as Kotlin and JavaScript. Additionally, I have a basic knowledge of cloud computing with AWS and experience in web application development using technologies like React.js, Nuxt.js, and Express.js. I am determined to become a software engineer capable of solving problems with creative solutions. I have successfully completed various projects at university, providing me with valuable insights into software development. I am highly committed to continuous learning and growth, as well as collaborating with colleagues to achieve common goals. I have a strong interest in Software Engineering and am always looking for new opportunities to contribute to challenging projects. I also have an ambition to continually improve my programming skills and stay updated with the latest technologies

Working Experience

Dusty Room Screen Printing | FullStack Developer Intern | Intern   December 2022 - January 2023

While serving as a Full-Stack Developer Intern at Dusty Room Screen Printing, I was involved in web application development using technologies like Vue.js and Express.js. I also successfully integrated systems, worked in a collaborative team, and actively participated in solving technical issues. This experience has broadened my understanding of software development and motivated me to continue learning and growing in this field.

PT.Nittoh Presisi Indonesia | Production Operator | Contract Employee   December 2019 - November 2022

I have three years of experience as a Production Operator at PT. Nittoh Precision Indonesia. During that time, I honed my skills in operating production equipment with precision and efficiency. I carried out my tasks with a focus on quality, which is reflected in my track record of meeting strict quality standards. In addition to achieving production targets, I also actively contributed to process improvement efforts that resulted in efficiency and quality enhancements. Workplace safety has always been my priority, and I have a clean record in maintaining a safe working environment.
